Gray & Troy Insurance Announces Second Location in the historic Teass House
Recent business expansion led to the downtown locale

SAN LUIS OBISPO, CA – In addition to their current Broad Street location, Gray & Troy Insurance Services will operate out of the historic Teass House at the corner of Osos and Palm Streets. The expansion stems from the company’s desire to increase their Property/Casualty Division. The first step toward that goal occurred in April when G&T brought on seasoned property and casualty broker, Gary Andreini. When space became an issue, a second location was sought. “We are looking at the expansion as a way to better serve our clients,” states Gray & Troy vice president Dan Troy. “People can still contact us the way they always have. The phone number and emails will remain the same, only now we’ll be accessible in two locations.”

Ultimately, the company would like to purchase and occupy a building larger than their current site on Broad Street. They are continually looking for an appropriate space, about 5,000 square feet. In the mean time, they are maximizing both office locations and enjoying their new downtown space. “The new location is really convenient for business people to drop by,” continues Troy.

Gray & Troy was founded in 1999 by longtime local insurance agents Gene Gray and Dan Troy. The company has two San Luis Obispo locations, at 2420 Broad St. and at 890 Osos St., serving clients throughout the tri-county area. For more information on Gray & Troy, call (805) 541-7100 or visit them online at www.gray-troy.com.
